

# 7½ Easy Ways to encourage hand washing

1

**Make it easy!** Place hand sanitizer at checkouts, registers, entry points, and other high-traffic areas.

2

**Sanitize** reusable items like menus and carts.

3

**Share** articles, info & stories about the disgusting nature of unclean hands with your employees.

4

Under “Employees must wash hands before returning to work” in your restroom, post another sign reading “**Everyone should wash hands before returning to life.**”

5

**Adopt time-outs:** take a few moments every day to stop and sanitize surfaces (counters, shelves, keyboards, phones, etc).

6

**Develop a message** encouraging clean hands that employees can respectfully share with your customers.

7

**Give prizes** for clean hands to employees. Create a contest where customers can sign up to win a gift card after using hand sanitizer.

7½

**Tell Us!**

You know your organization best. What can you do to encourage clean hands?  
**Let us know your secrets to success & best practices.**
